

# TL, TXL, TSL Series:

## Precision Link Transfer Conveyor

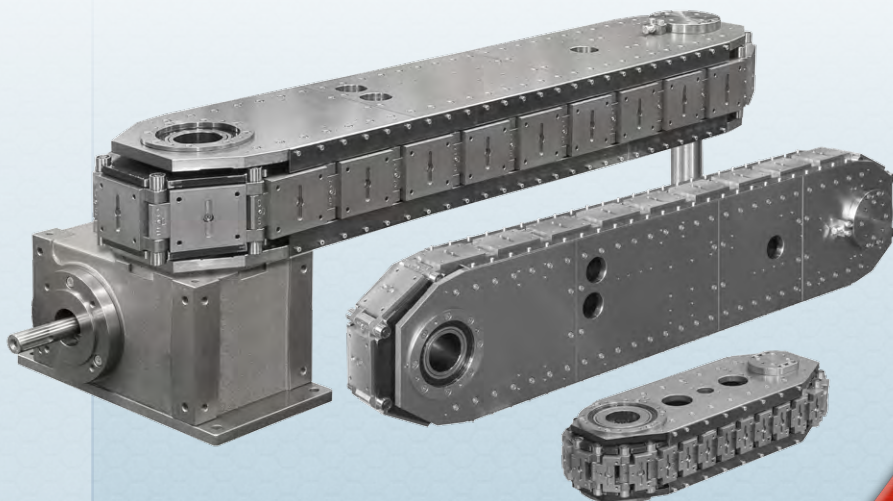

**TL Sizes: 25-50-75-100-105-150-200-250**

**TSL Sizes: 50**

**TXL Sizes: 75-100-150**

**Index Stroke Distance: 25 to 600 mm or Flexible Positioning Via Servo Motor**  
**Lengths up to: 9100 mm (longer lengths available upon request)**

- Fixed indexing or flexible positioning via servo drive.
- Modular design for flexible platform configurations and ease of customization.
- Carousel or Over/Under mounting styles.
- Clean Room certified for Medical, Pharma & Cosmetic applications.
- Rigid nickel plated links.
- Chordal compensation take up cams to maintain link tension.
- Highest station to station accuracy.
- Custom options available include: machine bases, line shafts & synchronized parts handlers.

# TL, TXL, TSL Series:

## Precision Link Transfer Conveyor

**Our Precision Link Transfers** provide the industry's highest accuracy and repeatability for automated assembly and manufacturing machinery platforms.

### Features Include:

- Electroless Nickel Plated Exteriors that meet FDA Requirements.
- FDA approved internal lubricants.
- GAMP Compliant.
- Class 10,000 Certified, 1,000 compatible.
- Cycle Rates up to 200+ cycles per minute.
- $\pm 0.0035$ " Index Distance Accuracy.

**Fixed Indexing  
Over-Under Configuration**

**Servo Drive  
Carousel Configuration**
